CERTIFICATION IN RISK MANAGEMENT ASSURANCE(CRMA)

As the only risk management assurance certification for internal auditors, The IIA's Certification in Risk Management Assurance (CRMA) program has been updated to reflect the in-depth organizational knowledge and advanced skill sets that are required to provide effective risk management assurance to audit committees and executive management.

Earning the CRMA helps address the impact of risk and demonstrates you can:

- Provide assurance on core business processes in risk management and governance.
- Educate management and the audit committee on risk and risk management concepts.
- Offer quality assurance and control self-assessment.
- Add value for your organization as a trusted advisor.

CRMA Exam requirement

A candidate who is a Certified Internal Auditor (CIA) having completed all 3-Parts exams is advanced directly to the CRMA core exam, having fulfilled that eligibility requirement.

CRMA Eligibility Period

The CRMA program window is two years, meaning that candidates have two years from the date they are accepted into the program to complete the program requirements (i.e., pass the exam and provide evidence that they have obtained five years of internal audit and/or risk management experience).

CRMA Exam Syllabus

The revised syllabus sets out to achieve this purpose by ensuring that all concepts are assessed at a proficient cognitive level. In other words, the exam does not require candidates to simply memorize or demonstrate basic comprehension of concepts. Instead, it is designed to test candidates' application of concepts and their ability to analyze and evaluate data, make sound judgments, and formulate conclusions and recommendations.
